

Serenity Gardens Seniors offers a more intimate experience for our senior residents.

We have 1:4 caregiver-to-resident ratios which allows more personalized care. We want to give our residents and their families a peace of mind knowing that we provide quality care and support. Most importantly we have passionate caregivers that serve from the heart.

We are committed to providing the best services and make a positive difference in our resident's lives.

Owner

My passion to open an assisted living home came after watching my dad lose his independence as he aged. I want to assist seniors with the transition from their current homes, whether it's a new room at Serenity Gardens Seniors or learning more about the types of senior housing options available to them.
